

Nested comments broken. UPDATE: Fixed

Posted by [Admin](#) on February 4, 2006 - 11:11pm

Topic: [Site news](#)

It appears that our webhost is having some problems with the Scoop installation. All comments that are not on the top level are not displaying. Hopefully our webhost is on the case. In the meantime, be sure to post your comments on the top level (i.e., just use the 'Post a comment' button, don't use the 'Reply to this' link).

As soon as it's fixed, I'll post an update. Thanks for your patience.

Update [2006-2-5 0:46:24 by Admin]: The problem's been fixed. Feel free to use this as an open thread.
