Once a month I plan to interview someone of note in NYC who is involved in the many interrelated peak oil issues , like last month's [interview with Ben Jervey](#), author of the Big Green Apple.

Sometime in the next few weeks I will interview Dr. [Stephen Leeb](#), of Leeb Capital Management, author of the "[The Oil Factor](#)" and "[The Coming Economic Collapse: How You Can Thrive When Oil Costs \\$200 a Barrel](#)". These books have helped shape my financial investments over the past year. It's so convenient he's located here in NYC.

Please send me questions you would like to ask him by email or post them as comments.
