WASHINGTON, June 22 — The language in the House measure seems innocuous enough. Tucked into the Coast Guard budget bill, it says merely that Section 608 (c) (1) "is amended by striking the second sentence."

But what that language would do is allow one company, Nabors Industries, to gain permanent access to business open only to American companies. The language is needed because Nabors, a big oil drilling company, moved its tax headquarters to Bermuda and its legal headquarters to Barbados in 2001 to avoid American taxes.
