The NPR "live" feed is posted below; the WKRG feed is posted "under the fold" (click "there's more" below). It is the same as the BP feed, which can be [found here](#), but it seems pretty dicey and keeps going offline.

**Edit:** This video is being moved below the fold (Thursday am), because another copy of it is being provided above, and this comment thread is getting very long. Please redirect the conversation to this thread: <http://theoil drum.com/node/6115>. Cheers.
